INTERLOCKING PAVERS

The objective of this guide is to illustrate the design possibilities available with the Galleria paving stone. Galleria's three different sized components allows the landscape designer to create a multitude of interesting patterns. This guide will illustrate a sample of the design possibilities available.

The 6 x 9 bundle is packaged in a 4:1 ratio of 6 x 9 in. (150 x 225mm) to 3 x 6 in. (75 x 150mm) stones.

The 6 x 9 bundle can also be used for soldier coursing.

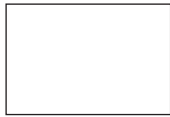

The Galleria is a 60mm (2.36 in.) paver.

The Galleria is packaged in two separate bundle configurations.

• Measurements, product dimensions and coverage are nominal and may change without notice due to mould manufactures specs and/or mould wear.
